

## Social Media Calendar

## Social Media Calendar

## Creating a monthly social media calendar is key to maintaining consistency and engagement.

Here are a few ideas for each month to get your social calendar ideas flowing. Be sure to create a mix of timely content and useful information, not just selling your products and services. Consumers want to see your personal identity authentically. Leverage User Generated Content (UGC) to share what other consumers are saying to build an online community.

## Additional ideas to add based on your company:

Company News-keep your audience up-to-date on what's happening within the organization
Events-even if it's not your event, share what's happening within the community
Product launches-start building excitement on your social channels on what's coming!

## January
